

# Traditional Lighting

## Cobra

*Familiar Design, Staying Power*

The first and best choice for many municipal and residential applications continues to be the Cobra. Its height and horizontal reach target light precisely where needed. Selection from a wide range of available wattages ensures the ability to meet the specific lighting requirements of any number of projects.

---

**Applications** Streets, neighborhoods, highways, parking lots, open areas, commercial driveways

---

**Lamp Sources** High pressure sodium (HPS); metal halide

---

**Wattages** HPS: 50, 70, 100, 150, 250, 400;  
metal halide: 400

---

**Pole Styles** Round wood, mounting height 25, 30 or 35 feet (embedded); fiberglass 25-foot mounting height (30-foot embedded)

---

**Lighting Distribution** Asymmetrical IES Types II (150 watts or lower) and III (250 watts or higher)
