

Delaware Environmental Information Fuel Resource Mix

The following environmental information is for Conectiv Power Delivery customers who have remained with Conectiv Power Delivery and who have not chosen a competitive electricity supplier.

Electricity can be generated from a number of different fuels. This information, also known as “Fuel Resource Mix,” will allow you to compare the electricity supply provided by Conectiv Power Delivery to electricity supply from other Electric Suppliers. Conectiv Power Delivery will provide this information to its customers each quarter. Information on the Fuel Resource Mix of other Electric Suppliers will be available on the Delaware Electric Supply Choice web site at www.state.de.us/electric or by calling toll-free 1-877-SHOP-DEL (1-877-746-7335).

The electricity supply provided to customers by Conectiv Power Delivery from January 1, 2004, to December 31, 2004, was produced using the following fuels:

(continued on the reverse side)

**Energy Source (Fuel Resource Mix)
January 1, 2004 - December 31, 2004**

| | |
|------------------------------------|-------------|
| Coal | 52.5% |
| Gas | 6.9% |
| Nuclear | 37.2% |
| Oil | 1.1% |
| Unspecified Fossil | 0.0% |
| Renewable Energy | |
| Captured Methane Gas | 0.2% |
| Geothermal | 0.0% |
| Hydroelectric | 1.4% |
| Solar | 0.0% |
| Solid Waste | 0.6% |
| Wind | 0.1% |
